To Whom It May Concern:

I am writing this reference letter for Htut Aung Lynn. In my capacity as a manager, I have had the privilege of working together with him at IT Division of Yoma Bank Limited for more than two and a half years. He was a member of Database Administration Team since he joined Yoma Bank Limited on 13 May 2019 and resigned on 22 OCT 2021 as a Database Administrator. During his employment at Yoma Bank, his major responsibilities were implementation, configuration and maintenance of database systems including Oracle databases, MySQL databases, Microsoft SQL databases, MongoDB databases and MariaDB databases. He has shown strong expertise particularly in Oracle Database technologies such as Oracle RMAN backup and restore, Oracle DataPump Export and Import, Oracle Real Application Clusters (RAC), Oracle Active DataGuard, and Oracle DB Transparent Data Encryption (TDE). He has exhibited his professionalism as a database administrator by maintaining the reliable operation of critical databases, and by providing dedicated support to financial application teams. Based on the delivery of his projects and other assignments, I would rate his professional performance in my team as exceptional.

Htut Aung Lynn has a number of strengths to offer to his environment. He is a fast learner and a good team player. He is always excited to accept new challenges and he always maintains a good focus on his assigned tasks. He is very devoted to his work and he always delivers his assigned tasks in a timely manner.

In conclusion, I would highly recommend Htut Aung Lynn to any employer. If his performance in my team is any indication of how he would perform in his future career path, any employer lucky enough to have him would have an excellent asset for their organization. If you need any additional information, feel free to contact me at my mobile or email.

Sincerely,

HEIN ZAW HTIKE

Manager

Core Systems and Platform Infrastructure Department

IT Division
